

Video Project Filing

****New Project File**

Create and use this filing structure whenever saving a new project to keep all of your editing assets together.

HOW TO SAVE FOOTAGE FOR VIDEO EDITING

Audio

Store all of your project's audio files here: soundbites, music, sound FX, etc.

Exports

Store all of your project's exported media here, including rough drafts and finals.

Footage

Store all raw video clips for your project here.

Graphics

Store all of your project's images here: Photos, clip art, slides, etc.

Project Files

Store all software files here: Premiere, DaVinci Resolve, After Effects, Photoshop, Illustrator, etc.
